Table of Contents

Chapter 1	Introduction	1
1.1	Overview.....	2
1.2	Project Overview	2
1.3	Style Conventions	3
1.4	Included Data	4
1.5	Description of AutoCAD Civil 3D	5
1.5.1	Program Interface	5
1.5.2	Workspaces	7
1.5.3	Dynamic Input.....	7
1.5.4	Selection Preview	8
1.5.5	Data Management	9
1.5.6	Styles	9
Chapter 2	Data Collection and Base Map Preparation	11
2.1	Overview.....	12
2.1.1	Concepts	12
2.1.2	Terms.....	13
2.2	Importing GIS Data	14
2.2.1	Importing ESRI Shapefiles	14
2.2.2	Controlling the Display of Polygons.....	24
2.2.3	Viewing GIS Attributes in AutoCAD	25
2.3	Using Queries to Manage and Share Data.....	26
2.3.1	Attaching Source Drawings.....	26
2.3.2	Defining a Query.....	33
2.3.3	Saving Changes Back To the Source Drawings.....	38
2.4	Inserting Images and the Project Boundary	42
2.4.1	Inserting a Registered Image	42
2.4.2	Adding the Project Area.....	46
2.5	Importing Point and Breakline Information from Aerial Mapping	48
2.5.1	Attaching Source Drawings.....	48
2.5.2	Defining a Compound Query	52
2.6	Chapter Summary	62
Chapter 3	Preliminary Layout.....	63
3.1	Overview.....	64
3.1.1	Concepts	64
3.1.2	Styles	65
3.2	Creating a Preliminary Existing Ground Surface.....	66
3.2.1	Creating a Surface.....	66
3.2.2	Adding Surface Data	70
3.2.3	Changing the Surface Style to Control Display.....	74
3.2.4	Using the Object Viewer	75
3.3	Creating a Preliminary Alignment	77
3.3.1	Drafting the Preliminary Alignment	77
3.4	Creating Points from an Alignment.....	82
3.4.1	Establishing the Point Settings	82
3.4.2	Setting Points on the Alignment	85
3.5	Creating a Point Group and Exporting the Points	87
3.5.1	Creating a Point Group	88
3.5.2	Creating a Point Import/Export Format	90
3.5.3	Exporting Points to an ASCII File	93
3.6	Chapter Summary	94
Chapter 4	Creating a Survey Plan	95
4.1	Overview.....	96

4.1.1	Concepts	96
4.1.2	Styles	97
4.2	Importing Survey Points	98
4.2.1	Creating a Description Key File	98
4.2.2	Importing Points from an ASCII File.....	105
4.2.3	Confirming the Description Keys Worked Properly	108
4.3	Working with Point Groups	109
4.3.1	Creating a Point Group for Property Corners	109
4.3.2	Creating a Point Group for Center Line Points.....	113
4.3.3	Creating a Point Group for Breakline Points	114
4.3.4	Creating a Point Group for Tree Points	114
4.4	Controlling Point Display	116
4.4.1	Creating Point Styles.....	116
4.4.2	Creating Point Label Styles	121
4.4.3	Controlling Point Display with Point Groups	133
4.4.4	Controlling the Dragged State	135
4.4.5	Controlling Point Label Size in Model Space	137
4.4.6	Controlling Point Group Display Order	138
4.5	Drawing Linework Using Transparent Commands	140
4.5.1	Drawing Lines by Point Number	140
4.5.2	Drawing Lines by a Range of Point Numbers	141
4.5.3	Drawing Lines by Point Object	143
4.6	Working with Parcels	145
4.6.1	Defining a Parcel from Existing Geometry.....	145
4.6.2	Creating a Parcel Area Report.....	149
4.6.3	Creating a Parcel Legal Description Report	151
4.7	Labeling Linework	155
4.7.1	Labeling Parcel Lines	155
4.7.2	Working with Parcel Segment Labels.....	157
4.7.3	Creating a Line Tag Style.....	159
4.7.4	Tagging Parcel Lines	162
4.7.5	Creating a Line Table	163
4.7.6	Creating a Parcel Area Table	166
4.7.7	Labeling AutoCAD Objects	176
4.8	Additional Exercises	182
4.9	Chapter Summary	182
Chapter 5	Building a Survey Quality Surface.....	183
5.1	Overview.....	184
5.1.1	Concepts	184
5.1.2	Styles	184
5.2	Building a Surface from Survey Data	185
5.2.1	Creating a Point Group to Be Used As Surface Data	185
5.2.2	Creating the Survey Surface	186
5.2.3	Adding Point Group Data to a Surface	189
5.2.4	Creating Breaklines by Point Number	190
5.2.5	Creating Breaklines by Point Selection.....	191
5.2.6	Adding Breaklines to the Surface	193
5.2.7	Viewing the Surface.....	194
5.3	Editing the Surface.....	195
5.3.1	Editing Point Data	195
5.3.2	Editing Breaklines	197
5.3.3	Deleting Lines.....	198
5.3.4	Pasting Surfaces	200
5.4	Surface Analysis	203
5.4.1	Displaying Slope Arrows	203
5.4.2	Elevation Banding	204
5.4.3	Slope Analysis	210

5.5	Working with Contours	215
5.5.1	Displaying a Surface as Contours.....	215
5.5.2	Controlling Contour Display.....	217
5.5.3	Labeling Contours	222
5.5.4	Moving Contour Labels.....	222
5.5.5	Deleting Contour Labels	223
5.5.6	Labeling Only the Major Contours	223
5.5.7	Editing Contour Labels.....	225
5.5.8	Controlling Surface Display for Performance	230
5.6	Chapter Summary	231
Chapter 6	Working with Proposed Horizontal Alignments.....	233
6.1	Overview.....	234
6.1.1	Concepts	234
6.1.2	Styles	235
6.2	Laying Out the Horizontal Alignment	236
6.2.1	Default Curve Settings.....	236
6.2.2	Creating Tangents with Curves.....	240
6.3	Editing Alignments	241
6.3.1	Editing Alignments Graphically.....	241
6.3.2	Editing Alignments in Grid View.....	241
6.4	Stationing and Offsets	243
6.4.1	Working with Alignment Labels	243
6.4.2	Changing the Stationing of an Alignment.....	245
6.4.3	Labeling Station and Offset Values	247
6.4.4	Creating Alignment Offsets	248
6.5	Laying Out Parcels	248
6.5.1	Creating Right of Way Parcels	248
6.5.2	Merging Parcels	250
6.5.3	Creating Parcels Manually.....	251
6.5.4	Creating Parcels with the Slide Bearing Tool	254
6.5.5	Creating Parcels with the Slide Bearing Tool Automatically.....	256
6.5.6	Editing Parcels	259
6.5.7	Deleting Parcels	259
6.5.8	Renumbering Parcels.....	260
6.6	Working With Parcel Styles and Labels	262
6.6.1	Controlling Parcel Display.....	262
6.6.2	Creating Parcel Styles	263
6.6.3	Creating Parcel Area Label Styles.....	268
6.6.4	Changing the Styles of Multiple Parcels.....	275
6.7	Additional Exercises	277
6.8	Chapter Summary	277
Chapter 7	Working with Profiles.....	279
7.1	Overview.....	280
7.1.1	Concepts	280
7.1.2	Styles	280
7.2	Creating an Existing Ground Profile	281
7.2.1	Sampling and Drawing the Profile	281
7.2.2	Changing the Profile View Style.....	289
7.2.3	Creating a Profile View Style	290
7.2.4	Creating Additional Profile Views.....	298
7.3	Creating Profiles of Finished Ground.....	300
7.3.1	Constructing the Finished Ground Centerline.....	300
7.3.2	Editing the Profile Graphically	305
7.3.3	Editing the Profile in Grid View	305
7.3.4	Working with Profile Labels.....	307
7.3.5	Adding Profile Labels	309

7.3.6	Working with Profile View Bands.....	311
7.3.7	Adding Profile View Bands	313
7.4	Chapter Summary	314
Chapter 8	Corridor Modeling	315
8.1	Overview.....	316
8.1.1	Concepts	316
8.1.2	Styles	316
8.2	Working with Assemblies	317
8.2.1	Subassembly Catalogs.....	317
8.2.2	Creating an Assembly	319
8.3	Working with Corridors	326
8.3.1	Creating a Corridor.....	326
8.3.2	Editing a Corridor.....	332
8.3.3	Creating Corridor Surfaces	333
8.3.4	Viewing and Editing Corridor Sections	337
8.3.5	Exporting Corridor Points	339
8.4	Working with Sections	344
8.4.1	Creating Sample Lines	344
8.4.2	Creating Section Views	348
8.4.3	Volume Calculations	350
8.4.4	Editing a Corridor to Update Volumes.....	354
8.5	Creating a Surface Showing Final Site Conditions.....	355
8.5.1	Pasting Surfaces	355
8.6	Additional Exercises	358
8.7	Chapter Summary	358
Chapter 9	Grading	359
9.1	Overview.....	360
9.1.1	Concepts	360
9.1.2	Styles	360
9.2	Working with Grading Groups	361
9.2.1	Creating a Grading Group	361
9.2.2	Creating a Grading Object	364
9.2.3	Creating a Grading Infill.....	371
9.2.4	Reviewing Grading Group Properties	373
9.3	Volume Calculations	375
9.3.1	Creating a Grid Volume Surface.....	375
9.3.2	Creating a TIN Volume Surface.....	378
9.3.3	Displaying Cut and Fill with Surface Styles.....	381
9.3.4	Creating a Legend for Cut and Fill Depths.....	383
9.4	Chapter Summary	384
