Table of Contents

Chapter 1	Introduction	1
1.1	Overview	2
1.2	Project Overview	2
1.3	Style Conventions	3
1.4	Included Data	4
1.5	Description of Autodesk Civil 3D	5
1.5.1	Program Interface	5
1.5.2	Workspaces	7
1.5.3	Dynamic Input	7
1.5.4	Selection Preview	8
1.5.5	Data Management	9
1.5.6	Styles	9
Chapter 2	Data Collection and Base Map Preparation	11
2.1	Overview	12
2.1.1	Concepts	12
2.1.2	Terms	13
2.2	Importing GIS Data	14
2.2.1	Importing ESRI Shapefiles	14
2.2.2	Controlling the Display of Polygons	24
2.2.3	Viewing GIS Attributes in <i>AutoCAD</i>	25
2.3	Using Queries to Manage and Share Data	26
2.3.1	Attaching Source Drawings	26
2.3.2	Defining a Query	33
2.3.3	Saving Changes Back To the Source Drawings	38
2.4	Inserting Images and the Project Boundary	41
2.4.1	Inserting a Registered Image (Aerial Photography)	41
2.4.2	Adding the Project Area	44
2.5	Importing Point and Breakline Information from Aerial Mapping	46
2.5.1	Attaching Source Drawings	46
2.5.2	Defining a Compound Query	51
2.6	Chapter Summary	60
Chapter 3	Preliminary Layout	61
3.1	Overview	62
3.1.1	Concepts	62
3.1.2	Styles	63
3.2	Creating a Preliminary Existing Ground Surface	64
3.2.1	Creating a Surface	64
3.2.2	Adding Surface Data	68
3.2.3	Changing the Surface Style to Control Display	72
3.2.4	Using the Object Viewer	73

3.3	Creating a Preliminary Alignment	75
3.3.1	Drafting the Preliminary Alignment	75
3.4	Creating Points from an Alignment	80
3.4.1	Establishing the Point Settings	80
3.4.2	Setting Points on the Alignment	82
3.5	Creating a Point Group and Exporting the Points	84
3.5.1	Creating a Point Group	85
3.5.2	Creating a Point Import/Export Format	87
3.5.3	Exporting Points to an ASCII File	91
3.6	Chapter Summary	92
Chapter 4	Creating a Survey Plan	93
4.1	Overview	94
4.1.1	Concepts	94
4.1.2	Styles	95
4.2	Importing Survey Points	96
4.2.1	Creating a Description Key File	96
4.2.2	Importing Points from an ASCII File	102
4.3	Working with Point Groups	104
4.3.1	Managing Point Group Layers	105
4.3.2	Locking Points and Group Properties	107
4.3.3	Creating a Point Group for Property Corners	107
4.3.4	Creating a Point Group for Center Line Points	111
4.3.5	Creating a Point Group for Breakline Points	112
4.3.6	Creating a Point Group for Tree Points	112
4.4	Controlling Point Display	114
4.4.1	Creating Point Styles	114
4.4.2	Creating Point Label Styles	118
4.4.3	Controlling Point Display with Point Groups	130
4.4.4	Controlling the Dragged State	132
4.4.5	Controlling Point Label Size in Model Space	134
4.4.6	Controlling Point Group Display Order	135
4.4.7	Managing Point Layers	137
4.5	Drawing Linework Using Transparent Commands	139
4.5.1	Drawing Lines by Point Number	139
4.5.2	Drawing Lines by a Range of Point Numbers	140
4.5.3	Drawing Lines by Point Object	142
4.6	Working with Parcels	144
4.6.1	Defining a Parcel from Existing Geometry	144
4.6.2	Creating a Parcel Area Report	148
4.6.3	Creating a Parcel Legal Description Report	150
4.7	Labeling Linework	154
4.7.1	Labeling Parcel Lines	154
4.7.2	Working with Parcel Segment Labels	156

4.7.3	Creating a Line Tag Style	157
4.7.4	Tagging Parcel Lines	160
4.7.5	Creating a Line Table	161
4.7.6	Labeling AutoCAD Objects	163
4.8	Additional Exercises	168
4.9	Chapter Summary	168
Chapter 5	Building a Survey Quality Surface.....	169
5.1	Overview.....	170
5.1.1	Concepts	170
5.1.2	Styles	170
5.2	Building a Surface from Survey Data	171
5.2.1	Creating a Point Group to Be Used As Surface Data ..	171
5.2.2	Creating the Survey Surface	173
5.2.3	Adding Point Group Data to a Surface	176
5.2.4	Creating Breaklines by Point Number	177
5.2.5	Creating Breaklines by Point Selection	179
5.2.6	Adding Breaklines to the Surface	181
5.2.7	Viewing the Surface.....	182
5.3	Editing the Surface.....	183
5.3.1	Editing Point Data	183
5.3.2	Editing Breaklines	185
5.3.3	Deleting Lines	186
5.3.4	Pasting Surfaces	188
5.4	Surface Analysis	191
5.4.1	Displaying Slope Arrows	191
5.4.2	Elevation Banding	193
5.4.3	Slope Analysis	198
5.5	Working with Contours	203
5.5.1	Displaying a Surface as Contours.....	203
5.5.2	Controlling Contour Display.....	204
5.5.3	Labeling Contours	209
5.5.4	Editing Contour Labels.....	213
5.5.5	Controlling Surface Display for Performance	218
5.6	Chapter Summary	219
Chapter 6	Working with Proposed Horizontal Alignments	221
6.1	Overview.....	222
6.1.1	Concepts	222
6.1.2	Styles	223
6.2	Laying Out the Horizontal Alignment	224
6.2.1	Default Curve Settings.....	224
6.2.2	Creating Tangents with Curves.....	228
6.3	Editing Alignments	229
6.3.1	Editing Alignments Graphically.....	229

6.3.2	Editing Alignments in Grid View.....	229
6.4	Stationing and Offsets	231
6.4.1	Working with Alignment Labels	231
6.4.2	Changing the Stationing of an Alignment	233
6.4.3	Creating Alignment Offsets	235
6.5	Laying Out Parcels	235
6.5.1	Creating Right of Way Parcels	235
6.5.2	Merging Parcels	237
6.5.3	Creating Parcels Manually	238
6.5.4	Creating Parcels with the Slide Bearing Tool	241
6.5.5	Creating Parcels Automatically	243
6.5.6	Editing Parcels	246
6.5.7	Deleting Parcels	246
6.5.8	Renumbering Parcels.....	247
6.6	Working With Parcel Styles and Labels	249
6.6.1	Controlling Parcel Display.....	249
6.6.2	Creating Parcel Styles	250
6.6.3	Creating Parcel Label Styles.....	255
6.6.4	Changing the Styles of Multiple Parcels.....	261
6.7	Additional Exercises	263
6.8	Chapter Summary	263
 Chapter 7 Working with Profiles.....		265
7.1	Overview.....	266
7.1.1	Concepts	266
7.1.2	Styles	266
7.2	Creating an Existing Ground Profile	267
7.2.1	Sampling and Drawing the Profile	267
7.2.2	Changing the Profile View Style.....	271
7.2.3	Creating a Profile View Style	272
7.3	Creating Profiles of Finished Ground.....	278
7.3.1	Constructing the Finished Ground Centerline.....	278
7.3.2	Editing the Profile Graphically	283
7.3.3	Editing the Profile in Grid View	283
7.3.4	Working with Profile Labels.....	285
7.3.5	Working with Profile View Bands.....	287
7.3.6	Adding Profile View Bands	289
7.4	Chapter Summary	290
 Chapter 8 Corridor Modeling		291
8.1	Overview.....	292
8.1.1	Concepts	292
8.1.2	Styles	292
8.2	Working with Assemblies	293

8.2.1	Subassembly Catalogs.....	293
8.2.2	Creating an Assembly	295
8.3	Working with Corridors	301
8.3.1	Creating a Corridor.....	301
8.3.2	Editing a Corridor.....	306
8.3.3	Creating Corridor Surfaces.....	308
8.3.4	Viewing and Editing Corridor Sections	311
8.3.5	Exporting Corridor Points	313
8.4	Working with Sections	316
8.4.1	Creating Sample Lines	316
8.4.2	Creating Section Views	320
8.4.3	Volume Calculations	323
8.5	Creating a Surface Showing Final Site Conditions.....	327
8.5.1	Pasting Surfaces	327
8.6	Additional Exercises	330
8.7	Chapter Summary	330
Chapter 9	Grading	331
9.1	Overview.....	332
9.1.1	Concepts	332
9.1.2	Styles	332
9.2	Working with Grading Groups	333
9.2.1	Creating a Grading Group	333
9.2.2	Creating a Grading Object	336
9.2.3	Creating a Grading Infill.....	342
9.2.4	Reviewing Grading Group Properties.....	345
9.3	Volume Calculations	347
9.3.1	Creating a Grid Volume Surface.....	347
9.3.2	Creating a TIN Volume Surface.....	350
9.3.3	Displaying Cut and Fill with Surface Styles.....	353
9.3.4	Creating a Legend for Cut and Fill Depths	355
9.4	Chapter Summary	356
